

# Immunisation

At **Coalway Early Years** we expect that children are vaccinated in accordance with the government's health policy and their age. We ask that parents inform us if their children are not vaccinated at the point of registration so that we can manage any risks to their own child or other children/staff/parents in the best way possible.

Our nursery does not discriminate against children who have not received their immunisations and will not disclose individual details to other parents. However, we will share the risks of infection if children have not had immunisations and ask parents to sign a disclaimer.

We record, or encourage parents to record, information about immunisations on children's registration documents.

## **Staff vaccinations policy**

It is the responsibility of all staff to ensure they keep up-to-date with their vaccinations, as recommended by the NHS vaccination schedule and keep the nursery informed.

If a member of staff is unsure as to whether they are up-to-date, then we recommend that they visit their GP or practice nurse for their own good health.

## **Emergency information**

We keep emergency information for every child and update it if anything changes, or at the start of each school year. Parents are reminded to inform us of changes through our newsletters.
